Electronic Cash Register

## Maximum Performance in Minimum Space

---

- New drawer slot provides quick and safe operation
- Key-activated mode switch for secure operation
- Locking cash drawer with 3 bill and 6 coin compartments
- Drum printing ensures for efficient use
- Bright, large-character LED display for easy viewing
- 8 pre-programmed departments
- 80 price look-ups (PLUs) for quick and accurate entry

Meet the XE-A102 – the ideal partner for small business and shop owners who need an electronic cash register that's big on performance, but small in size.

Packed with convenient functions, the enhanced XE-A102 makes it easier and more efficient than ever to manage your sales. Transactions are neatly organized with eight departments for classifying products and services into groups, while price look-ups (PLUs) for up to 80 top-selling items ensure fast and accurate price entry. The newly added drawer slot provides a quick and secure deposit for bills and cheques. And with six coin compartments, you've got all the space you need for an effective drawer layout.

Better still, the compact XE-A102 is designed for smooth and reliable operation. While wide key spacing helps prevent entry errors, the large LED display makes prices, totals, and change amounts easy to view. Combined with a durable drum printer, the XE-A102 ensures efficient use.

#### Other key features

- 4 Programmable tax rates
- Currency conversion
- Error escape function
- Under tray storage for charge slips, cheques, and larger bills
- Spacious key layout and large function keys for smoother, more efficient operation

Design and specifications are subject to change without prior notice.

#### Key-activated mode switch

The operating mode can only be changed by inserting a key. This makes for increased security since only the person with the key can change modes.

#### Drawer slot

The handy drawer slot brings you quick, safe storage for large bills and cheques without the constant hassle of lifting a heavy coin tray.
