XE-A213

THE
IDEAL
INVESTMENT

Sharp, the UK's number one ECR brand*, introduces you to a clever, easy-to-use electronic cash register (ECR) that makes running your hospitality business so much easier.

With the quick efficient and accurate XE-A213 by your side, you can concentrate on looking after your customers and growing your business.

- Ideal for small but busy restaurants and cafés.
- Quick, silent printing minimises point of sale disruption.
- LCD operator display.
- Electronic journal stores transaction data.
- Flat spill-proof keyboard.
- USB interface.
- Secure locking spacious cash drawer.

SHARP

XE-A213

There are numerous reasons why the XE-A213 electronic cash machine from Sharp is an ideal investment for retail and hospitality outlets, especially as its flat, spill-proof keyboard is perfect for busy pubs, bars, cafés and restaurants.

Quick, quiet and easy-to-use!

Easy to programme, with a maximum of 1,200 PLUs (price look ups), entering price information is simplicity itself. It is great to view too. Clear and easy-to-read LCD display ensures accurate transactions for both operator and customer.

A silent thermal printer, complete with new time-saving drop-in paper loader, produces fast sales receipts with the option of carrying your business logo and cash-generating sales messages.

Secure cash, secure information

A high-capacity, space-efficient metal cash drawer takes up miminal counter space but has more than enough room for five note and eight coin compartments. When not in use, the ruggedly-built drawer is locked shut, safeguarding your takings.

All the day's transactions activity can be stored electronically in the cash register's memory and recalled at your discretion for analysis. You can also call up and print out necessary data when needed.

And while it does the business, you and your staff can look after your customers. Little wonder the XE-A213 is proving to be so popular.
